

Ordering the right size glove is as easy as 1 ... 2 ... 3!

- 1** Place your hand, palm down, fingers together, on the chart. Be sure to line up the edge of your index finger on the line marked "A."
- 2** Line up your first knuckle at the arrow.
- 3** Read your size, measured across the knuckles, on the line marked "B."

MEN ONLY:

If your fingers are a little short for your hand size, you should order a CADET size. (Cadet sizes are not available in ladies' gloves.)

The outline of the hand shown is a Men's Medium. Dotted lines show Cadet Medium. Cadet sizes are the same as Men's across the palm, but are 1/4" shorter in the fingers.

A SIZE TIP:

Check the tag inside the MG Golf Glove you're using now. Or use this size chart to order the glove that will give you the comfortable fit preferred by touring pros. Don't worry if your hand doesn't match exactly. Our gloves will mold to fit you perfectly.
